

Faculty Position in Biophotonics
Biomedical Engineering Department, Northwestern University

The Biomedical Engineering (BME) Department in the Robert R. McCormick School of Engineering and Applied Science seekeing to fill a new tenure-track position in biophotonics. The successful candidate will be expected to develop a distinguished externally-funded research program and contribute to the teaching and advising of graduate and undergraduate students. The collaborative environment at Northwestern is exceptionally strong, with opportunities for interactions in BME and other departments, the Center for Cancer Biophotonics and the connections to the newly-established Imaging Center in the Chemistry of Life Processes Institute. The anticipated appointment is at the rank Assistant Professor, though appointment at higher ranks will be considered. See www.bme.northwestern.edu for further information on our faculty and programs. Applicants should send Word or PDF versions of a cover letter, a complete curriculum vitae, the names and contact information for references, and a statement of research and teaching interests to Prof. Vadim Backman, Biophotonics Search Committee Chair at BME_Biophotonics_Search@northwestern.edu. Interviews are expected to begin as early as December 2009 and will continue until the position is filled. The earliest starting date is September 1, 2010. Women and candidates from underrepresented minority groups are encouraged to apply. Northwestern University is an Affirmative Action/Equal Opportunity Employer. Hiring is contingent upon eligibility to work in the United States.
